Dear City Councilmembers and staff,

We'd like to invite you to the first event of a speaker series program we're piloting on major technology topics for the Mayor and City Council Offices. We live in the most innovative community on the planet and this is an opportunity to share and learn from the people powering the technology all around us.

Our first session will be about social media featuring Katie Ferrick <<https://www.linkedin.com/in/katieferrick/>> , LinkedIn's Director of Community Affairs. We'll start with an overview of social media, then go into a fireside chat, and finally end with Q&A session where you can ask questions to our expert. It should be a fun and educational hour!

**Conference Call Supervisor Cortese**  
Scheduled 6/28/17 by DG

The call is to brief you on the soon to be released County Homeless Census and Survey Results. The call is hosted by our office and will take place tomorrow, Thursday, June 29, 2017 at 3pm PST. We will have staff from the Office of Supportive Housing lead the call. They are the ones who conducted the census and survey. Conference call-in information: phone number 844-430-6707; Conference ID # 641-581-3675

-----  
Supervisor Dave Cortese, President of the Santa Clara County Board of Supervisors, invites you to participate in a countywide conference call for elected officials, and their staff, regarding the 2017 Point-in-Time Homeless Census and Survey results.

What is the Point-in-Time homeless count and how often is it conducted? Every two years, during the last ten days of January, Santa Clara County conducts a comprehensive Point-in-Time count of the local population experiencing homelessness. This count measures the prevalence of homelessness across all 15 cities and unincorporated areas in the County, and collects information on individuals and families residing in emergency shelters and transitional housing, as well as people sleeping on the streets, in cars, in abandoned properties, or in other places not meant for human habitation.

The biennial Point-in-Time Count is the only source of nationwide data on sheltered and unsheltered homelessness, and is required by the U.S. Department of Housing and Urban Development (HUD) of all jurisdictions receiving federal funding to provide housing and services for individuals and families experiencing homelessness.

We'd like to invite you to the first event of a speaker series program we're piloting on major technology topics for the Mayor and City Council Offices. We live in the most innovative community on the planet and this is an opportunity to share and learn from the people powering the technology all around us.

Our first session will be about social media featuring Katie Ferrick <<https://www.linkedin.com/in/katieferrick/>> , LinkedIn's Director of Community Affairs. We'll start with an overview of social media, then go into a fireside chat, and finally end with Q&A session where you can ask questions to our expert. It should be a fun and educational hour!
