Tuesday

As per the email string below, I wanted to give you a list of the times we anticipate needing coverage for the Front Desk in January.

- **Wednesday, January 4th: 9-10am** [our monthly all-staff meeting]

- **Monday AND Tuesday, January 9th and 10th** [Celina will be gone on vacation—coverage will be needed for breaks for **BOTH DAYS**]
 - **10-10:15am**
 - **noon to 1pm**
 - **3-3:20pm**

- **Wednesday OR Thursday, January 11th or 12th** (date to be determined), **12-1pm** [our monthly all-staff training]

This is the bulk of the anticipated shifts. Occasionally meeting times change...also, in case of illness, we might need to ask for additional assistance. I always strive to provide as much notice as possible.

Conference Call Supervisor Cortese
Scheduled 6/28/17 by DG

The call is to brief you on the soon to be released County Homeless Census and Survey Results. The call is hosted by our office and will take place tomorrow, Thursday, June 29, 2017 at 3pm PST. We will have staff from the Office of Supportive Housing lead the call. They are the ones who conducted the census and survey. Conference call-in information: phone number 844-430-6707; Conference ID # 641-581-3675

Supervisor Dave Cortese, President of the Santa Clara County Board of Supervisors, invites you to participate in a countywide conference call for elected officials, and their staff, regarding the 2017 Point-in-Time Homeless Census and Survey results.

June 29, 2017 Continued

Thursday

What is the Point-in-Time homeless count and how often is it conducted? Every two years, during the last ten days of January, Santa Clara County conducts a comprehensive Point-in-Time count of the local population experiencing homelessness. This count measures the prevalence of homelessness across all 15 cities and unincorporated areas in the County, and collects information on individuals and families residing in emergency shelters and transitional housing, as well as people sleeping on the streets, in cars, in abandoned properties, or in other places not meant for human habitation.

The biennial Point-in-Time Count is the only source of nationwide data on sheltered and unsheltered homelessness, and is required by the U.S. Department of Housing and Urban Development (HUD) of all jurisdictions receiving federal funding to provide housing and services for individuals and families experiencing homelessness.
